PUBLIC SERVICE  
COMMISSION

**MOTION**

The city of Manchester, by counsel, moves to withdraw its proposed wholesale water rate conditioned on the Commission's acceptance of its request of February 23, 2006, of a staff audit of its water department financial records. The purpose of this staff audit is to calculate a proposed wholesale water rate subject to the city's review and acceptance, which will substitute for the rate case procedure currently pending.

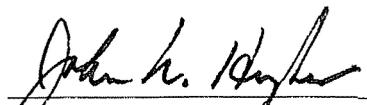

For these reasons, Manchester withdraws its proposed wholesale rate increase pending the Commission's order granting this Motion.
